FURNITURE TIPPING RESTRAINT

WARNING!

Serious or fatal crushing injuries can occur from furniture tip-over.

To help prevent tip-over;

- Install tip-over restraint provided.
- Place heaviest items in the lowest draws.
- Unless specifically designed to accommodate, do not set TV's or other heavy object on top of this product.
- Never allow children to climb or hang on drawers, doors or shelves.
- Never open more than one drawer at a time, (OR)
- Do not defeat or remove the drawer interlock system.

Use of tip-over restraints may only reduce, but not eliminate the risk of tip over.

PREFERRED KIT

APPLICATION METHOD

This tip restraint must be attached to a wall stud using the 2" screw enclosed.

1. Attach a bracket securely to the back top rail of the furniture using the 5/8" screw provided, through the smaller hole.
2. Locate the other bracket on the wall over a wall stud and 2 inches below the mounting bracket secured to the back of your unit. Attach to the wall stud using the 2" provided, through the smaller hole.
3. Place the furniture into position so both mounting brackets are vertically in line.
4. Lace the end of the restraint strap through the larger hole in each mounting bracket. Bring both ends together and slide the flat end through the locking end and draw it through until all slack is removed.
5. Confirm the slack is securely laced and locked.

Tip Restraint is a very positive step in child protection.
